

## Software Engineer

---

*At J2 Health, we know that healthcare is complicated and falls short of the experience and outcomes consumers deserve. J2 exists to enable higher value healthcare. We are a team of industry insiders and technologists laser focused on transforming a critical, and underserved part of the ecosystem - provider networks.*

*As individuals, it's difficult to find the right doctor that meets our medical and personal needs, at affordable costs. Doing their best with unreliable data and disjointed manual processes, healthcare organizations struggle with this too as they decide which doctors should be included in-network on our health insurance plans.*

*J2 Health brings together best in class data and purpose built software to enable healthcare organizations to optimize provider network performance. We use our technology to power healthcare's best networks and deliver highest value care to patients.*

*We recently raised a \$4.5M seed round led by Primary Ventures, Tiger Global and BoxGroup and are looking for early team members interested in building a mission driven healthcare company and are not afraid to get their hands dirty.*

### **Responsibilities:**

- Implement new features and extend the architecture of the code base
- Test your own code, including writing reasonable unit tests
- Deploy new builds to various cloud environments
- Troubleshoot bugs and issues
- Work together with product on designing new features and understanding current behavior
- Help shape the overall product architecture and team culture

### **Qualifications:**

- Ability to deliver high quality, extendable, flexible, well-designed object-oriented software
- Understanding of short and long term goals of the application
- Adaptability to the changes in short and long term goals
- Producing software with thought-through architecture and maintainability in mind
- Autonomous working style
- 3-5 years of Object Oriented programming
- Experience with spring boot is a huge plus

- Experience with cloud environments is a huge plus

Please send your resume to [recruiting@J2health.com](mailto:recruiting@J2health.com) to apply.

*Interested?* J2 Health is committed to building a diverse and inclusive workplace. It is proven that women and people of color are less likely to apply to a job unless they meet 100% of the qualifications. If you're excited about the role's responsibilities (and feel that you'll knock it out of the park) but don't have the exact qualifications listed, we encourage you to apply!

*J2 Health provides equal employment opportunities (EEO) to all employees and applicants for employment without regard to race, color, religion, gender, sexual orientation, national origin, age, disability, or veteran status. In addition to federal law requirements, J2 Health complies with applicable state and local laws governing nondiscrimination in employment in every location in which the company operates. This policy applies to all terms and conditions of employment, including recruiting, hiring, placement, promotion, termination, layoff, recall, transfer, leaves of absence, compensation, and training. J2 Health expressly prohibits any form of workplace harassment based on race, color, religion, gender, sexual orientation, national origin, age, disability, or veteran status.*
